

SUSTAINABILITY POLICY

Burniston & Cloughton Village Hall & Playing Fields
Active Burniston and Cloughton

Burniston & Cloughton Village Hall and Playing Fields recognises and understands the importance of being responsible, sustainable and ethical in order to meet the needs of the present and leave a better environment for future generations.

We are committed to providing a fun, (green flag) experience which makes a positive impact on the environment, society and economy.

Our Policy is to:

- **Adhere to all Environmental Legislation**
- **Minimise greenhouse gas emissions** - through an on-going programme of energy efficiency improvements
- **Promote the efficient use of resources** - by preventing the use of resources primarily and then, reducing use
- **Divert waste from landfill and minimise waste production** - by following the waste hierarchy
- **Consider sustainability in the procurement of goods and services** - by encouraging the use of ethical, fair trade and sustainably sourced products
- **Maintain, protect and promote biodiversity and the natural environment** on site and across Yorkshire
- **Support local business and community** - by using local goods, services and promoting Yorkshire tourism

- **Promote Financial, Mental and Physical Health and Wellness** - amongst volunteers, visitors and the local community
- **Provide a safe working environment and promote a positive safety culture**
- **Promote sustainable travel** - by encouraging the use of public transport.

Promote our commitment to sustainability and the environment the general public, employees and the tourism industry to encourage them to support our initiatives

- **Continually improving our environmental performance** - by reviewing new technologies and methods of business

Signed for and on behalf of Burniston & Cloughton Village Hall and Playing Fields
